

# Mobile-Catch®

The Link of Mobile Device & Life

# Hawk Action

Super Portable

Small & Light

Quickly Connected

Catch Everywhere

On the water, on stage, on the road, flying through the air; Hawk Action allows you to mount an action cam anywhere, to record events while you keep both hands free.

Interlocking fingers clamp on to any surface, flat, round or uneven with a bite range from 0~46mm. This gives huge versatility of mounting options and the stability to keep shooting even in unstable conditions like riding or cycling. Light and compact Hawk Action is perfect for setting up shots anywhere and can be quickly remounted to give a quick change of angle. The integrated universal 1/4 20 UNC connection and the included GoPro® mount adaptor mean Hawk Action can be used with a wide range of action cameras; with shooting in portrait, landscape or any angle in between, plus 360° rotation. And for even greater versatility an additional extension rod accessory is available to provide extendable reach.

## Product Specification

|                  |                                            |
|------------------|--------------------------------------------|
| Clamp Opening    | 0~46mm                                     |
| Weight           | 132g                                       |
